

Contact Lens Fees and Policies

Contact Lens Fitting is not part of the standard annual eye exam and may require a number of follow-up visits. These visits are important to ensure the proper fit of the lenses and health of the eye. Please keep these appointments. The cost Contact Lens Fitting is \$95-\$160 which is determined by the type of lenses that are required, your prescription, and if you are a previous contact lens wearer. Your fitting may begin at the time of the initial exam with the doctor transposing your glasses prescription in order to determine the contact trails needed for evaluation.

Your contact lens prescription is valid for one year after your final prescription has been determined. At the end of that year, a NEW EXAM and FIT will need to be performed to determine your new prescription.

Fees include: Contact Lens Exam
Instruction on Insertion and Removal for New Wearers
Trial Lenses as needed
Lens Care Kit
Follow-up visits as needed for up to 60 days

Cost: New Wearer \$115-\$160
Renewal Wearer \$95-\$130
Follow-up Visits past 60 day \$35.00

If you have any unexplained eye pain, watering of the eyes or discharge, cloudy or foggy vision, decrease in vision, or increase sensitivity to light, remove your contacts and schedule an appointment to see your eye care professional before wearing your contact lenses again. This visit would be considered a medical office visit which would be covered under you medical insurance plan.
